

We helped the web team at SIRA (NSW State Insurance Regulation Authority) re-launch a more accessible website...

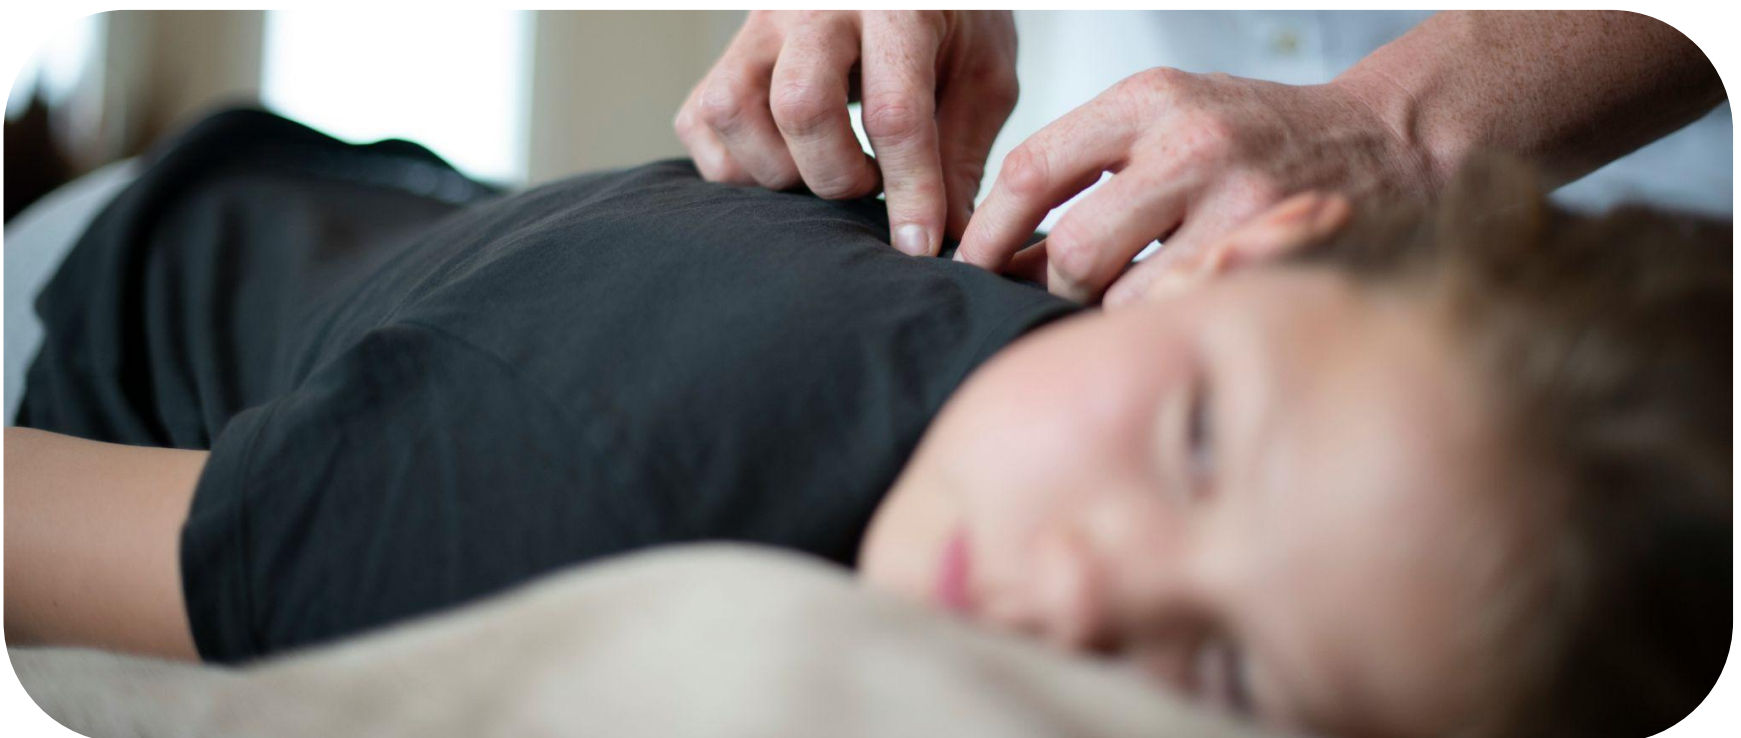

... by building a new Squiz website theme, based on the NSW design system, to serve a new Information Architecture, using the Squiz DXP, CMS & Funnelback...

...creating a digital experience for injured and stressed people, reducing confusion, helping them take the next step with confidence, whether that's lodging a claim, understanding their rights, or accessing vital support services.
