

FrontStage

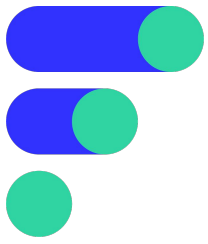

How we rebuilt the
PIRSA website to
create a design
system & theme for
the future...

Government of South Australia

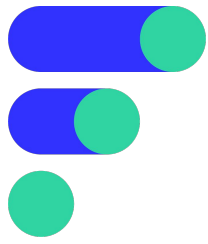

Department of Primary Industries
and Regions

... by starting with an existing government digital design system, we fast tracked a redesign and rebuild, to streamline the user experience using the Squiz DXP, CMS & Funnelback...

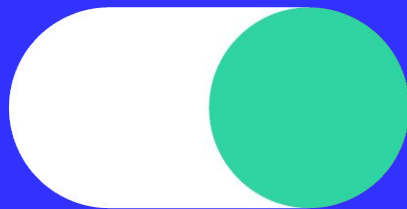

...now PIRSA visitors receive
a richer search experience,
more visual cues to aid in
navigation and, **SARDI**
research has a new IA and
page templates
showcasing projects,
scientists and research.
